PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in the MERN stack, specializing in building scalable and dynamic web applications. Skilled in creating intuitive and user-focused interfaces with a strong understanding of UI/UX principles. Experienced in 3D web development using Three.js to deliver interactive and visually engaging experiences. Proficient in deploying applications using Docker, ensuring efficient and reliable delivery pipelines. Additionally, equipped with data analysis and data science capabilities using Python frameworks, along with expertise in data visualization and business intelligence using Power BI.

Education

11/2021 – 05/2025	B.Tech in Computer Science and Engineering Malla reddy Engineering College CGPA: 7.7/10	Hyderabad
06/2019 – 03/2021	Intermediate (MPC) NSR Impulse Junior College, Hyderabad Percentage: 69%	Hyderabad
06/2009 – 04/2019	Secondary School Certificate (SSC) Nagarjuna Talent School, Hyderabad Percentage: 70%	Hyderabad

Technical Skills

Data Analysis

SQL , Excel , Python (Pandas, NumPy) , Power BI

Databases

MySQL , Firebase , MongoDB

3D techknowledge

three.js , WebGL

Languages

Java , Python , C , javascript

Framework

Express.js , Three.js , Pandas.py , NumPy , bootstrap , materialize , Node.js , React.js

Tools & Platforms

Microsoft Excel , Docker , Figma , Power BI , Blender , Spline , VS Code

Certifications

- Power Bi - Ben10x
- Java Certification - SkillVertex
- Prompt Engineering Certification - Ben10x
- Microsoft Azure (AZ-900)
- Python, Java, C - Skilltimate Tech
- SQL Certification - Ben10x

Projects

iNotebook - MERN Stack Notes App

- Built a secure notes management system with **JWT authentication** and **RESTful APIs** using the MERN stack.
- Managed and structured data with **MongoDB** while creating a responsive **React.js** front end. Integrated **Power BI** to visualize user activity and generate analytical insights.

NewsMonkey Application

- Developed a **React.js**-based news portal with real-time news fetch, search, categories, and pagination.
- Tech Stack: React.js, JavaScript, HTML, CSS, Bootstrap

TextUtils Application

- Developed a **text analysis and transformation tool** to extract insights such as word/character frequency and readability.
- Integrated **Power BI dashboards** to visualize text metrics and patterns for analytical insights. Implemented real-time text preprocessing (case conversion, formatting, cleaning) with **React.js, HTML, CSS, JavaScript, Bootstrap**.

Quiz Application

- Developed a Java-based quiz platform with stored and dynamic question presentation.
- Tech Stack: Java, HTML, Java Maps

Interests

- Backend non-voice digital workflows
- Navigation and location-based systems
- Full-Stack Projects (Front-end, Back-end, DB integration)
- Exploring new technologies and frameworks
