PROFESSIONAL SUMMARY

Detail-oriented and motivated Software Testing and Quality Assurance professional with knowledge of Manual Testing, API Testing, Database Testing, and Software Development. Skilled in designing test cases, executing test scenarios, identifying defects, and validating software functionality. Hands-on experience with Postman, Jira, Selenium, SQL, Git, and Agile methodologies. Strong understanding of SDLC, STLC, Defect Life Cycle, Functional Testing, Regression Testing, Smoke Testing, and API Validation. Seeking an entry-level QA Engineer or Software Test Engineer position to contribute to software quality and business success.

EDUCATION

Malla reddy Engineering College, 11/2021 – 05/2025 | Hyderabad
B.Tech in Computer Science and Engineering
CGPA: 7.7/10

NSR Impulse Junior College, Hyderabad, 06/2019 – 03/2021 | Hyderabad
Intermediate (MPC)
Percentage: 69%

Nagarjuna Talent School, Hyderabad, 06/2009 – 04/2019 | Hyderabad
Secondary School Certificate (SSC)
Percentage: 70%

TECHNICAL SKILLS

Data Analysis

SQL , Excel ,Power BI

Databases

MySQL , MongoDB

Testing skills

- Manual Testing
- Functional Testing
- Regression Testing
- Smoke Testing
- Sanity Testing
- Test Case Design
- API Testing

Additional skill

- MERN Stack
- UI/UX
- 3d modelling

Languages

Java , C , javascript

Tools & Platforms

- Postman
- JIRA
- Selenium
- Docker
- Figma
- Power BI
- VS Code

Version Control

- Git
- GitHub

CERTIFICATIONS

Power Bi - Ben10x

Microsoft Azure (AZ-900) [↗](#)

Java Certification - SkillVertex [↗](#)

Python, Java, C - Skilltimate Tech

Prompt Engineering Certification - Ben10x

SQL Certification - Ben10x

PROJECTS

iNotebook - MERN Stack Notes App [↗](#)

- Built a secure notes management system with **JWT authentication** and **RESTful APIs** using the MERN stack.
- Managed and structured data with **MongoDB** while creating a responsive **React.js** front end. Integrated **Power BI** to visualize user activity and generate analytical insights.

NewsMonkey Application [↗](#)

- Developed a **React.js**-based news portal with real-time news fetch, search, categories, and pagination.
- Tech Stack: React.js, JavaScript, HTML, CSS, Bootstrap

TextUtils Application [↗](#)

- Developed a **text analysis and transformation tool** to extract insights such as word/character frequency and readability.
- Integrated **Power BI dashboards** to visualize text metrics and patterns for analytical insights. Implemented real-time text preprocessing (case conversion, formatting, cleaning) with **React.js, HTML, CSS, JavaScript, Bootstrap**.

URL Shortener

- Developed a URL Shortener web application that converts long URLs into short, shareable links for efficient access and management. Implemented unique short-code generation, URL redirection, and link management functionalities using modern web technologies. Designed a responsive and user-friendly interface while ensuring fast redirection and efficient database handling.
- Tech Stack: HTML, CSS, React.js, Express.js, MongoDB

INTERESTS

- Learning the 3D Modeling
- Navigation and location-based systems
- Full-Stack Projects (Front-end, Back-end, DB integration)
- Exploring new technologies and frameworks
